

ACT ON
CANCER

TOGETHER

1 in 8 men will get prostate cancer

Know the risk factors and look out for yourself and the men in your life.

Prostate cancer is easier to treat if it is caught early.

If you have any questions about prostate cancer, get in touch with us. Scan the QR code, visit actoncancertogether.org.uk or call 01273 234769.

Know the risk factors

You have a higher chance of getting prostate cancer if:

You are over 50

You are Black

Someone in your family had it

Prostate cancer can have no symptoms. If you are concerned about your risk, speak to your GP

If you have been affected by prostate cancer, PCaSO run local support groups in Hampshire, Sussex, and Dorset - including in Brighton.
